

Workshop on ‘Instruments for Meat and other Food Product Analysis’

ICAR-National Research Centre on Pig, Rani, Guwahati has organized a workshop on ‘Instruments for Meat and other Food Product Analysis’ on 17th June, 2015 in collaboration with Scientific and Digital Systems, New Delhi. The focus of the workshop was to introduce various instruments required in Food Research and Development including demonstration of few products. The programme was attended by over 15 participants from academia and research institutions viz. Central Institute of Technology, Kokrajhar; Tezpur University, Tezpur; Home Science College, Tura; ICAR-National Research Centre on Yak, Arunachal Pradesh; College of Veterinary Science, Khanapara and NEIST, Jorhat. Dr. P. Chakravarty, Principal Scientist of ICAR-NRC on Pig welcomed the participants to the workshop. Dr. M.K. Tamuli, I/c Director was presided over the function and he stressed the importance of using precision equipments for the accurate measurements of different food quality parameters. Technical experts from Scientific and Digital Systems had given an overview of the various instruments used in the analysis of different food materials. Hands on training programmes for use of NIR based Food Analyzer and Texture Profile Analyzer were arranged for the benefit of the participants. Dr. R. Thomas, Scientist and Organizing Secretary of the workshop offered vote of thanks.
