The Director, ICAR-NRC on Pig, Rani, Guwahati invites e-Tender for Modular Lab Furniture and Fitting at ICAR-NRC on Pig, Guwahati under following terms & conditions:

Closing Date of submission of online Tenders in CPP Portal: 07.11.2017 at 4.00 PM

Opening Date of Online Tenders: 08.11.2017 at 04.10 PM onwards.

TECHNICAL SPECIFICATIONS

One unit of fixture will consist of lab work bench and working table.

Total quantity required- TWO UNITS.

Specifications

General:

The entire unit should have elegant wood finish. High quality thick pre-laminated particle board (PLPB) or chemical resistant material confirming to relevant BIS Specifications such as 12823 – 1990 (EXT) should only be used. Chemically treated board should not warp, bulge, shrink, be brittle and develop cracks. CRCA sheet, if used should be of non-ageing quality, confirming to IS 513: 2008 and amendments. The entire unit should be aesthetically designed with long term durability.

a. LAB WORK BENCH (One on both sides)

The unit will stand on metal with C or similar frames on a height adjuster with pre laminated high quality particle board or similar material. All exposed edges should be smoothed with edge banding. The unit will have four leg spaces (two inside each lab top and working table). The entire unit will be supplied with handles and hinges where ever required. The unit will be supplied in modular pattern for rearrangement. Each unit will be provided with one side drawer consisting of one small drawer and one box drawer unit with locking facility.

FINISH: All the metal part will be powder coated to thickness not less than 60 micron in desired shade/colour.

WORKTOP: Worktop should be made of black coloured high quality granite of minimum thickness 18mm along with accessories and fitting resistant to acid, alkali and heat treatments. The granite top should have rounded edges on all exposing sides to avoid physical injury.

REAGENT RACK: Each Work Bench will be consist of one Reagent Rack made of minimum 25mm thick PLPB movable on the top of the work bench.

DIMENSION OF REAGENT RACK : 1000mmW x 300mm D x 700mm H (approximate)

PEDESTAL UNIT: The unit will consist of 2 Nos. Pedestal units made up 1.2mm thick CRCA sheet consisting of 1 No. drawer unit & 1 No. box unit.

ELECTRICAL POINTS: Each Work Bench should be provided with a minimum of 02 Nos. Power point with 16/5 Amp. Modular switch and Socket Points and each Reagent Rack will have a minimum of 02 Nos. power points with 16/5 Amp. All the electrical points should be modular

b. WORKING TABLES (One on both sides)- please see the diagram. All the working table will have wooden finish and chosen colour.

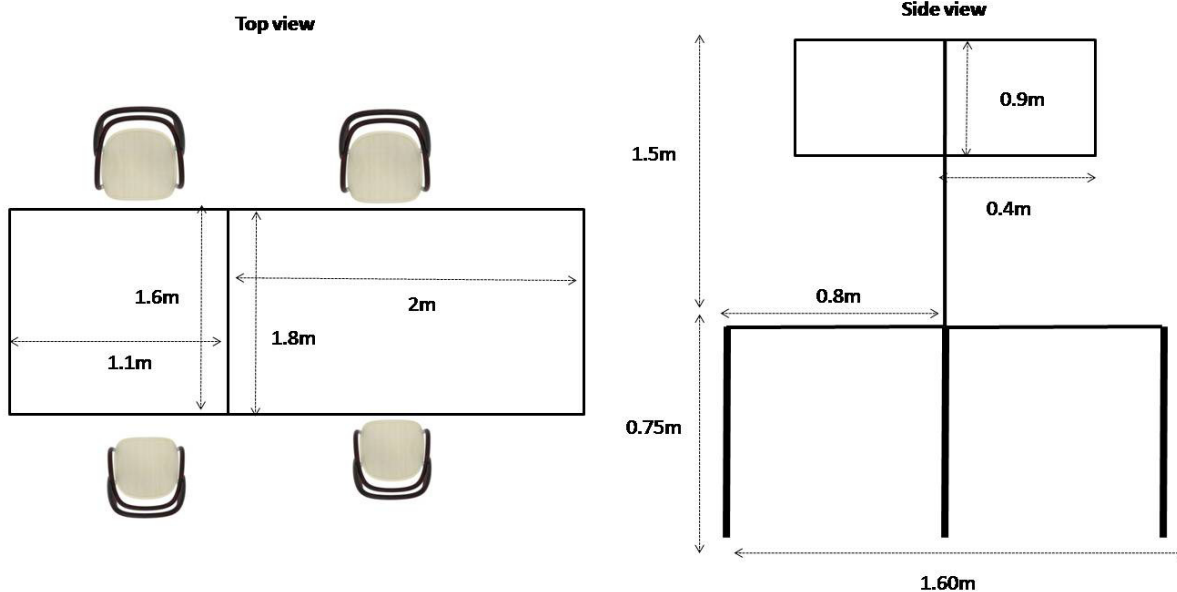

The unit will stand on a minimum of 18mm thick pre-laminated particle board (PLPB) or chemical resistant material confirming to relevant BIS Specifications with height adjuster. All exposed edges should be provided with PVC edge banding pasted with hot melt glue, adjacent to the granite top table.

WORKTOP: Worktop will be 25mm thick pre-laminated particle board (PLPB) or chemical resistant material confirming to relevant BIS Specifications of chosen colour. All exposed edges should be PVC edge banded of thickness 1 mm.

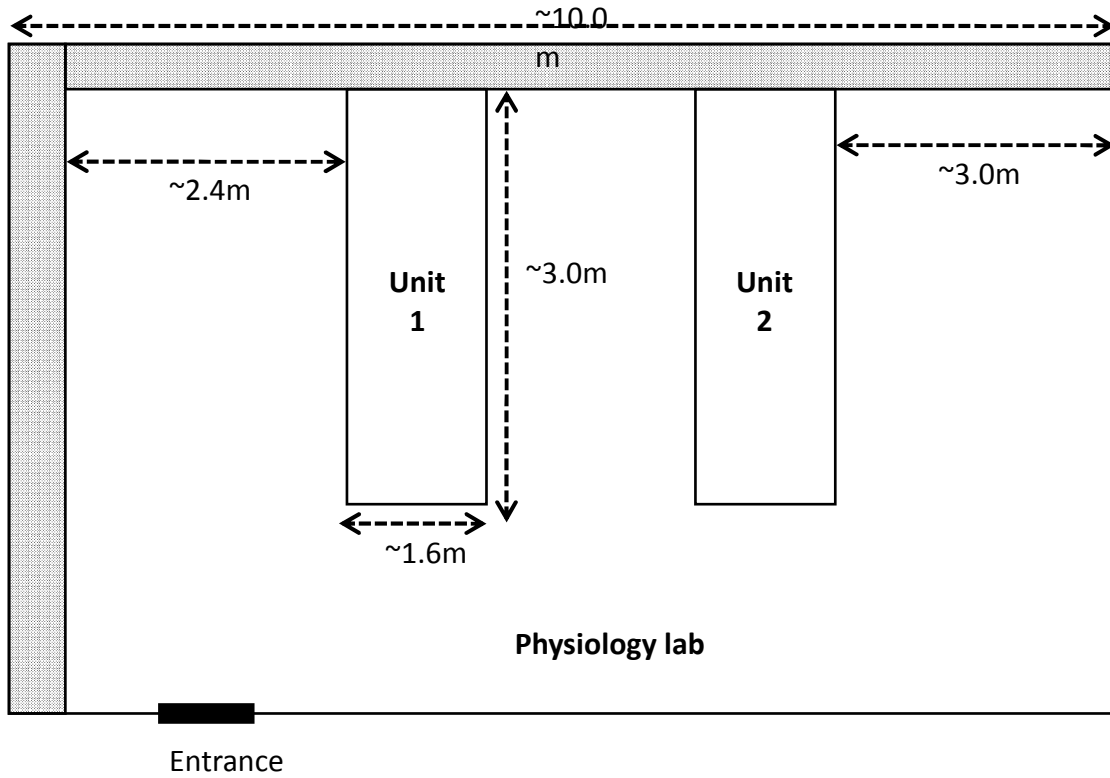

Two spot lights/side have to be fixed over the reagent racks on each and one spot light inside the working tables.

High quality laboratory working stools (4 nos) and revolving chairs with back rest (4 nos) with soft cushion to be supplied.

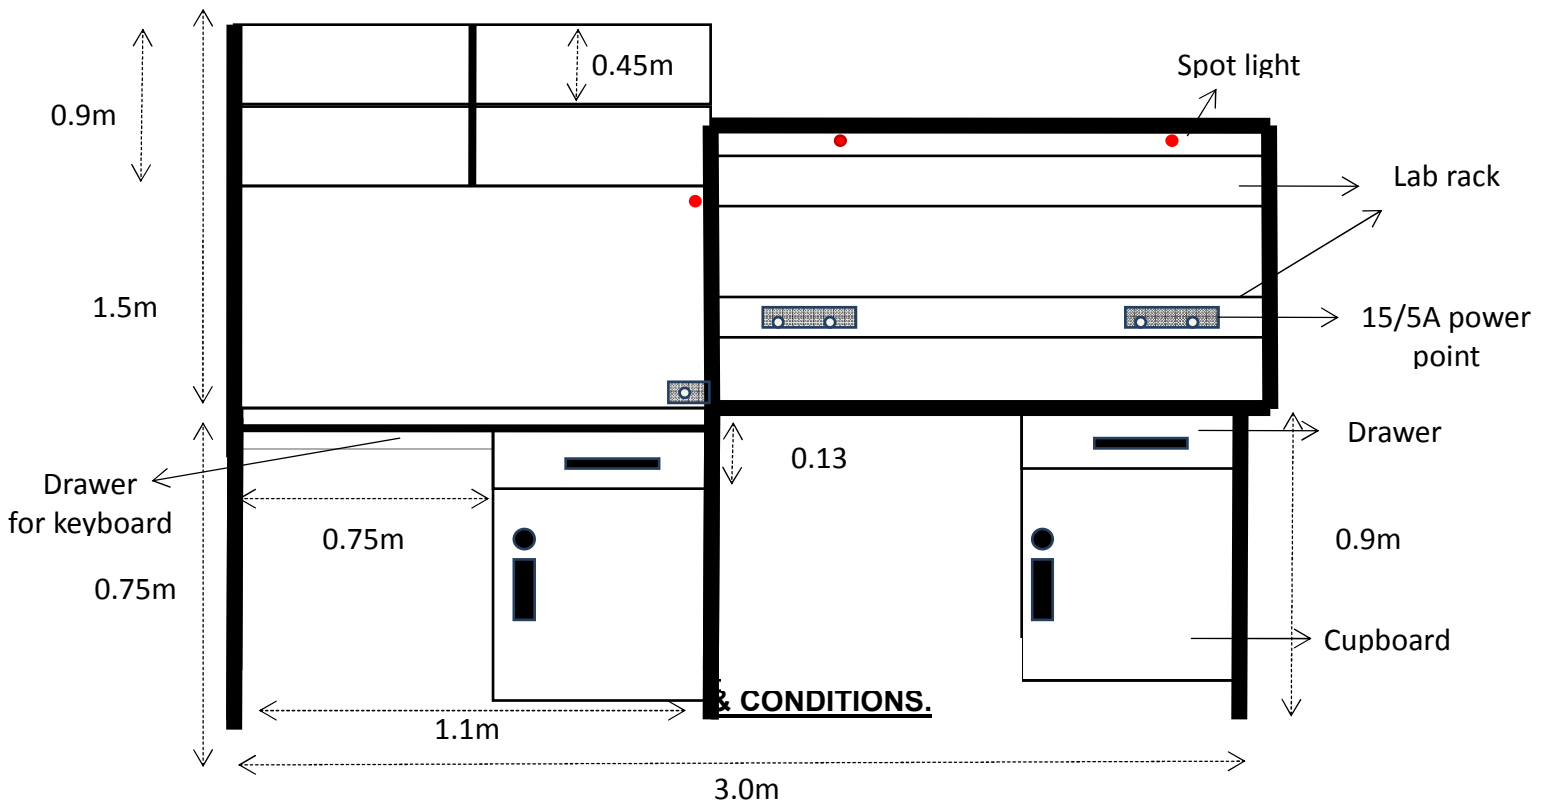

All other dimensions are approximate (indicated in the figures) and may be suitably modified to improve utility, aesthetic look, stability and durability of the structure.

Proposed outlay of units in the laboratory
